

As part of our drug utilization management program, members must request and receive prior authorization for certain prescription drugs in order to use their prescription drug benefits. Below is a list of drugs that currently require prior authorization. This list will be updated periodically as new drugs that require prior authorization are introduced. As benefits may vary by group and individual plans, the inclusion of a medication on this list does not imply prescription drug coverage. The Schedule of Benefits contains a list of drug categories that require prior authorization. Prior authorization requests are processed by our pharmacy benefit manager, Express Scripts, Inc. (ESI). Physicians must call ESI to obtain an authorization. (1-800-842-2015).
