## If you want to volunteer

### Notes:

- Do not self-deploy in flooded areas. Conditions will be dangerous for several days, and self-deployment can impede response and recovery efforts. Once conditions are safe, response organizations will assess damage and offer volunteer opportunities.

**Volunteer Louisiana** Volunteer Louisiana, the state service commission for Louisiana, was established in 1993 under the Office of the Lieutenant Governor and strives to promote national service and volunteerism throughout the state. As needs are identified, volunteer opportunities will be posted at: <http://volunteerlouisiana.galaxydigital.com/>

For medical needs volunteers, [click here](#).

**Samaritan's Purse** As volunteer opportunities re: Laura become active, they will be posted at <https://www.spvolunteer.org/project-response/286>

## If you want to donate

### Note:

Please do not send or bring unsolicited donations. In the early stages of the response phase, most organizations are unable to accommodate any material goods. Unsolicited donations create a challenge of storage and sorting when focus is needed on response and recovery.

**Community Foundation of Southwest Louisiana Area Relief Fund** We are raising money from people who want to help their neighbors in Southwest Louisiana return to the lives they'd known before this disaster struck. The contributions we receive will be granted to nonprofits that have proven they don't flinch when catastrophe comes.

At the start, our disaster grants pay for food, shelter, medicine, and all the other necessities that help stabilize those in most immediate need. Then we shift to making grants for long-term

recovery and, perhaps more importantly, for making people and places more resilient for the next time disaster visits.
