

\$0 Drug Copay Program

About the program: Blue Cross' \$0 Drug Copay Program offers \$0 copay (with deductible waived) for certain drugs used to treat certain chronic conditions. Members do not have to meet a deductible before getting program drugs for \$0.

Drugs in the \$0 Drug Copay Program are regularly recommended to treat asthma, chronic obstructive pulmonary disease (COPD), coronary heart disease, diabetes, heart failure and other common chronic conditions.

The \$0 Drug Copay Program is available for copay-based pharmacy benefits offered through Blue Cross or HMO Louisiana, Inc. The program is not available for coinsurance-only pharmacy benefits.

To find out if you have an eligible plan, call the Customer Service number on your ID card.

About this list: This is not a full list of drugs covered under your plan. If a drug is on this list, it does not mean it is covered for your plan because benefits may vary by group and individual plans. This list may change at any time without notice.

All drugs listed below are subject to the quantity and day supply limits included with your benefit plan (typically up to a 90-day supply at mail order). Please refer to your benefit plan information for a complete list of benefits, including specific exclusions.
