

Select Prescription Drug Kits Excluded from Coverage

Each year, as new drugs are approved or older drugs change in price, we make changes to how they are covered under our plans. We also remove drugs from coverage, if needed. We make these changes to keep costs down, while still allowing choices in care.

About this list: This sheet explains which prescription drug kits are not covered for most Blue Cross or HMO Louisiana, Inc. plans. This is not a full list of drugs that are not covered. Please read your plan booklet for more about excluded drugs, as benefits may vary by group and individual plans.
