Bridge Blue Point of Service (POS) plans are not required to comply with certain federal market requirements for health insurance, principally those contained in the Affordable Care Act. Be sure to check Your Policy carefully to make sure You are aware of any exclusions or limitations regarding coverage of preexisting conditions or health Benefits (such as hospitalization, emergency services, maternity care, preventive care, prescription drugs, and mental health and substance use disorders Benefits). Your Policy might also have lifetime and/or other dollar limits on health Benefits. If this coverage expires or You lose eligibility for this coverage, You might have to wait until an open enrollment period to get other health insurance coverage.

If there is any discrepancy between the information in this brochure and the policy, the policy prevails. Premium will vary with the level of benefits chosen. For complete information, please refer to the policy.

Benefits are based on allowable charges. Allowable charge is defined as the lesser of the billed charge or the amount established or negotiated by HMO Louisiana, Inc. as the maximum amount allowed for all services covered under the policy.

Notice: Healthcare services may be provided to you at a network healthcare facility by facility-based physicians who are not in your health plan. You may be responsible for payment of all or part of any fees for those out-of-network services, in addition to applicable amounts due for copayments, coinsurance, deductibles and non-covered services.

Specific information about in-network and out-of-network facility-based physicians can be found at [www.bcbsla.com/hbp](http://www.bcbsla.com/hbp) or by calling the customer service phone number on your ID card.

Is a Bridge Blue Plan the Right Choice for Me?

Bridge Blue plans are designed to bridge gaps in your healthcare coverage during times of transition and can be an alternative solution to an ACA health plan. A Bridge Blue plan could be the right choice for you if you are:

- Healthy, price-sensitive and between ages one and 65
- Unable to apply for ACA coverage because it is outside of Open Enrollment and you do not qualify for a special enrollment period (SEP)
- Waiting for ACA coverage to begin
- Turning 26 and coming off of your parent’s insurance
- Between jobs or waiting for benefits to begin at a new job
- Looking for a temporary alternative to COBRA insurance
- In school or a recent college graduate

Bridge Blue plans are still considered comprehensive coverage, but are not the same as having an annual health insurance plan under the ACA. **Please note:** There are important differences that may help you decide if a Bridge Blue plan is right for you. For example, Bridge Blue plans:

- Are not ACA-compliant and are not considered Qualified Health Plans.
- Are medically underwritten (application is approved based on health status).
- Are not guaranteed issue – underwriting rules will apply, and medical information is required.
- Do not cover dependents and will not be available to newborns under the age of one year. Since birth is a qualifying event for SEP under the ACA, an ACA product may be purchased for the newborn within 60 days of birth.
- Include a separate, high deductible for maternity benefits that does not count toward the Max Out-of-Pocket.
- Include separate policy limits on Physical Therapy, Occupational Therapy, Speech Therapy, Private Duty Nursing, Home Health and Hospice.
- Do not cover contraceptives, pediatric vision or pediatric dental.
- Are up to 11-month policies and benefits that run with the 11-month benefit period rather than a calendar year.

How Your Plan Works

Your Cost Share
These are the terms you need to know to help you understand the benefit charts in this brochure.

• **Premium**
  A premium is the monthly payment you have to pay for your plan.

• **Copayments**
  If your plan has a copayment, or “copay,” this means that you pay a set dollar amount, or flat fee, for some kinds of care, such as at your doctor’s office or pharmacy. Your copayment will be a lower amount for a primary care doctor and higher for specialists.

• **Deductibles**
  This is the amount you must pay up front before your insurance pays for your care. If your plan also has copayments, these copays will not count toward your deductible. Your plan may have multiple types of deductibles. Your plan will also have a separate out-of-network deductible.

• **Coinsurance**
  Once you’ve paid your deductible, you’ll pay a set percentage, or coinsurance, for your care. You will pay the lowest coinsurance amount when you stay in-network for care.

• **Maximum Out-of-Pocket**
  What you pay toward your medical and pharmacy deductibles, copayments and coinsurance applies to your maximum out-of-pocket. Once you’ve paid your maximum out-of-pocket, your insurance will pay 100% of the cost of covered care for the remainder of the calendar year. A separate out-of-pocket max will apply for services you receive out of your network. Your maternity deductible will not be applied to the maximum out-of-pocket.

Your Plan’s Network Coverage
HMO Louisiana has a large network of doctors and hospitals. This means you have access to the care you need at a lower price. To get the most value out of your health plan and keep your costs as low as possible, it’s important that you get care from a provider in your network.

It’s easy to look up doctors and hospitals in your network. Just go to [www.bcbsla.com/findcare](http://www.bcbsla.com/findcare) or use the BCBSLA mobile app and choose your plan’s network directory based on your selected plan:

• **Bridge Blue POS** should search the HMO Louisiana HMO/POS directory
• **Bridge Blue Connect POS** should search the Blue Connect HMO/POS directory
• **Bridge Community Blue POS** should search the Community Blue HMO/POS directory
• **Bridge Precision Blue POS** should search the Precision Blue HMO/POS directory
When you need care, consider your options and costs:

- **Your primary care doctor or specialist $**
  If you are sick or injured, but it’s not a life-threatening emergency, call your doctor and set up an office visit. Make sure that your primary care doctor is in your network, as well as any specialists you may see. Read below for information on how to select your primary care provider.

- **BlueCare: 24/7 online doctor $**
  With BlueCare telehealth, you can see a doctor online 24/7 for non-emergency, minor illnesses. It’s easier, faster and cheaper than ER or urgent care. Visit [www.bcbsla.com/BlueCareLA](http://www.bcbsla.com/BlueCareLA) or download the free app to enroll and learn more.

- **Urgent care center $$**
  If you have an illness or injury that you need to have looked at quickly, but it’s not an emergency, urgent care centers have doctors who can treat you. Most urgent care centers have night and weekend hours, and the doctors there can often do X-rays, lab work or stitches. The wait time will be less than in an emergency room, and you can save money. Call ahead to make sure the urgent care clinic is in your network.

- **Emergency room $$$$**
  If you have a life-threatening or serious illness or injury, call 911 or go to the nearest emergency room. When it’s a true emergency, your insurance will pay for your care no matter which hospital you choose. However, once you’re stabilized, we may ask you to move to a hospital in your network.

Look for these signs to tell whether it’s an emergency:

- Fainting or unconsciousness
- Breathing trouble or choking
- Nonstop bleeding
- Coughing or vomiting blood
- Chest pain
- Sudden or severe pain anywhere
- Sudden dizziness

**Selecting a Primary Care Provider**

With all Bridge Blue plans, you must pick a primary care provider (PCP) in your network to handle most of your medical needs when sick or injured. This is a doctor practicing in General Practice, Family Practice, Internal Medicine or Geriatrics for adults, or Pediatrics for children. You may also select a Nurse Practitioner (NP) or Physician Assistant (PA) as your PCP if he or she is set up in our system as a network primary care provider. **You must choose a PCP.** If you do not choose a PCP, one will be chosen for you. You can change your PCP at any time by logging onto your account at [www.bcbsla.com](http://www.bcbsla.com) or by calling the Customer Service number on the back of your ID card.
Your Prescription Drug Coverage

Prescription drug benefits are included in all plans. Your plan may have a separate drug deductible. Drug benefits are managed by Express Scripts.* To get the most out of your drug benefits, you should take a drug that is covered under your plan.

Covered Drugs List

Your plan has a covered drug list, or formulary, that includes thousands of generic and brand drugs, but not every drug is covered. How much you pay for the drugs on the list depends on the plan you choose and the drug you buy. If you fill a drug that is not on the covered drug list, you could have to pay the full cost of the drug.

Two things a covered drug list can tell you:

1. If there are other drugs you can take for your health problem that will cost you less.
2. About any rules that you must follow before a drug is covered.

Pay close attention to what your plan has. Is it a 2-tier pharmacy plan or a 3-tier pharmacy plan?

This means your plan has either two tiers of cost for drugs or three tiers of cost for drugs. Drugs in the lower tiers cost less than drugs in the higher tiers. To save money, start with a drug in Tier 1. If that one doesn’t work, you can move up to a higher cost drug in a higher tier, and so on.

You and your doctor can check to see if drugs you take are covered at www.bcbsla.com/pharmacy. If your doctor orders a new drug for you, ask him if the drug is on your covered drug list before you go to the pharmacy.
