Individual
Point of Service Plan

community BLUE
Baton Rouge

HMO Louisiana, Inc.
A subsidiary of Blue Cross and Blue Shield of Louisiana, independent licensees of the Blue Cross and Blue Shield Association.
Special note: This information is presented for general information only. It is not a contract, nor is it intended to be construed as a contract. If there is any discrepancy between the information in this brochure and the benefit plan, the benefit plan will prevail. Premium will vary with the level of benefits chosen. For complete information, please refer to the benefit plan.

Benefits are based on allowable charges. Allowable charge is defined as the lesser of the billed charge or the amount established or negotiated by Blue Cross and Blue Shield of Louisiana and HMO Louisiana, Inc., as the maximum amount allowed for all provider services covered under the terms of the benefit plan.

Notice: Healthcare services may be provided to you at a network healthcare facility by facility-based physicians who are not in your health plan. You may be responsible for payment of all or part of those fees for those out-of-network services, in addition to applicable amounts due for copayments, coinsurance, deductibles, and non-covered services.

Specific information about in-network and out-of-network facility-based physicians can be found at www.bcbsla.com or by calling the customer service phone number on the back of your ID card.
WELCOME TO COMMUNITY BLUE!
Community Blue POS – Quality Patient-Centered Care

HMO Louisiana, Inc. is proud to present Community Blue – our innovative point-of-service plan with a very selective network of providers.

When you choose Community Blue, you’re choosing a plan that saves you money over our traditional plans. Community Blue plans are for people who value quality, wellness, preventive care and personal accountability — all of which can save you money on healthcare.

HOW IS COMMUNITY BLUE DIFFERENT?
Community Blue plans are built around an innovative way of delivering healthcare that’s sometimes called the “medical home” or “patient-centered medical home.” This simply means you have a special network and a dedicated health support team providing care centered on you — the patient. You get high-quality coordinated care delivered by doctors in the Community Blue network. Your needs and preferences come first, and you have a voice in your care options.

Coordinated care also means that Community Blue doctors take a shared and efficient approach to your care. Your doctors can easily see full medical history through electronic medical records. This leads to smarter, more thorough diagnoses and better outcomes for you. Your doctors also will help you make the best decisions for your care.

DEDICATED NETWORK OF QUALITY PROVIDERS
Choose a Primary Care Physician (PCP) to deliver and coordinate your care within the Community Blue network. The PCP will refer you to specialists, file claims and authorize any special care or services required. If you do not choose a PCP, we will assign one to you.

What is coordinated care?
When you choose a coordinated care plan like Community Blue, you’re choosing to work with a smaller group of doctors for your health needs. This "narrow network" helps to make sure that your doctors meet all of your needs and preferences. You get better, higher quality care, even when you move from doctor to doctor.

Your Primary Care Physician (PCP)
A PCP is the most important member of your health support team. When applying for Community Blue, you’ll need to select a PCP in your network.

Your PCP will:
- Stay up to date on your health history
- Maintain your health records
- Provide basic care and prescribe medicine when you need it
- Help you make the best choices about your health and healthcare
- Send you to a specialist when needed to help coordinate your care
- Help keep your health costs low
BENEFITS

• Network Benefits
• Out-of-Network Benefits
• Dependent Out-of-Area Benefits
• Urgent Care Benefits
• Emergency Care Benefits
• Hospital Admissions from the ER
• Hospital Authorization for Planned Inpatient Stays
• Lab Services

OUT-OF-NETWORK BENEFITS

When you visit a doctor or hospital that is not in the Community Blue network, you will receive low-level benefits. In other words, your plan will pay for your care at a lower level. You can expect to pay much more out-of-pocket if you go out of the Community Blue network.

You must meet an annual deductible (an amount you must pay out-of-pocket every year) for services you get outside of your Community Blue network. once you meet your deductible, you will pay coinsurance (a percentage of your healthcare costs). HMO Louisiana will share part of your coinsurance payments. If you reach your out-of-pocket maximum, HMO Louisiana will pay 100 percent of the allowable charges for covered services for the rest of the calendar year.

What is balance billing?

For the services covered by your plan, we have negotiated rates with doctors and other healthcare providers in your network. What we have agreed to pay is called the “allowable charge.”

When you go outside of the network, you’re not protected by these negotiated rates. The doctor you see might decide to bill you for more than your plan pays. You will be responsible for paying that bill.

What to expect when you go out of your network:

• Your HMO Louisiana benefit payment for covered services may be reduced.
• You may be responsible for paying your doctor or other healthcare provider for all charges.
• You may have to pay the difference between what your plan pays and what you may be charged.
• You may need to file your own claims.

NETWORK BENEFITS

Staying in your Community Blue network is very important. Because you’ve chosen a “narrow network” of doctors, your benefits are maximized when you see those doctors. You will spend much more money when you go out of network.

As a Community Blue member, you don’t need to file any claims. Your network doctor or other network healthcare provider will file claims for you. You will only be responsible for copayments, coinsurance and your deductible (if it applies to you).

Community Blue doctors have agreed to:

• Accept your copayment, coinsurance or deductible (when they apply) PLUS a payment from HMO Louisiana as payment-in-full for services covered by your plan. In other words, you won’t be billed for the balance.
• Take part in cost-saving programs that ensure your care is the highest quality, but comes at a reasonable price.
DEPENDENT OUT-OF-AREA BENEFITS

For added convenience, Community Blue offers a third benefit level for members with dependents living outside of the designated service area. If you want to add dependent out-of-area benefits for a dependent living outside the service area, you must request it at the time of enrollment.

If dependent out-of-area coverage is selected, the dependent(s) living out of area receives strong benefits nationwide. These out-of-area members have an out-of-area deductible. Once this deductible is met, coinsurance percentage payments are shared for covered services. HMO Louisiana pays 80 percent of allowable charges and the member pays 20 percent, up to the out-of-pocket limit. Wellness benefits are covered at 100 percent.

URGENT CARE BENEFITS

Sometimes you need non-emergency medical care after hours. This is referred to as "urgent care." Urgent care is needed for a sudden, acute and unexpected medical condition that requires timely diagnosis or treatment, but does not pose an immediate threat to life or limb. Some examples of urgent care situations are:

- Ear infections
- Sprains
- Stomach aches
- Colds and flu
- Nausea
- Minor burns

When you visit an urgent care center in the Community Blue network, a $60 urgent care copayment will apply. Dependents who are classified as out-of-area will receive deductible/coinsurance-style benefits for urgent care visits.

An urgent care center is a clinic with extended office hours that provides urgent and minor emergency care to patients on an unscheduled basis without the need for an appointment. The urgent care center does not provide routine follow-up care or wellness examinations and refers patients back to their regular physicians for such routine follow-up wellness care.

EMERGENCY CARE BENEFITS

As always, in emergency situations the first priority is to seek treatment at the nearest facility. An emergency medical condition, as defined by state law, is a medical condition of recent onset and severity, including severe pain, that would lead a prudent layperson, acting reasonably and possessing an average knowledge of health and medicine, to believe that the absence of immediate medical attention could reasonably be expected to result in:

1) Placing the health of the individual, or with respect to a pregnant woman the health of the woman or her unborn child, in serious jeopardy;
2) Serious impairment to bodily function;
3) Serious dysfunction of any bodily organ or part.

Some examples of emergencies are:

- Severe bleeding
- Chest pains
- Poisonings
- Stroke
- Convulsions
- Burns
- Choking
When you visit an emergency room, you are required to pay a copayment. If the visit results in an inpatient admission, the emergency room copayment is waived. Providers must request authorization from HMO Louisiana within 48 hours of an emergency room admission.

Dependents who are classified as out-of-area will receive deductible/coinsurance-style benefits for emergency room visits.

**HOSPITAL ADMISSIONS FROM THE EMERGENCY ROOM**

If you are admitted to the hospital from the emergency room, network benefits will apply if the hospital is in the Community Blue network. If the hospital is not in the Community Blue network, low-level benefits will apply if you were stable at the time of admission. If you were not stable at the time of admission, high-level benefits will apply, but you may be required to move to a Community Blue network hospital once you are stable, or be subject to a $500 daily penalty.

**HOSPITAL AUTHORIZATION FOR PLANNED INPATIENT STAYS**

As long as you are hospitalized at your Community Blue hospital, you don’t need to arrange prior authorization for your stay. The hospital staff will handle this for you. If you’re planning an inpatient stay, your Community Blue hospital will get authorization before you check in.

Always check with your health support team that they’ve received authorization for your hospital stay.

If you choose a hospital other than a Community Blue hospital, you are responsible for getting prior authorization before a planned inpatient stay, or within two business days after an emergency admission. You will not receive the full coverage that you would at a Community Blue hospital. For questions, call 1-800-495-2583.

**Prior authorization**

To make sure you are getting the right care from a healthcare provider, we sometimes ask for prior authorization.

When you have prior authorization, you know what you can expect to pay. Also, you can rest assured that your plan will cover your care.

**LAB SERVICES**

The Community Blue plan has a restricted laboratory network. You will receive high-level benefits when your lab work is performed by your network doctor or hospital. Low-level benefits will apply if:

- you receive lab work from a provider who is not in the network; or
- your out-of-network provider sends your lab work to a laboratory that is not in the Community Blue network.
We are committed to preventive care. Detecting illnesses in their earliest stages helps ensure better health for our members and reduces medical costs. To promote preventive care, Community Blue covers a wide range of wellness services.

- Benefits indicated for pregnant women available only if member has pregnancy benefits.
CONVENIENCE, SIMPLICITY

Community Blue provides prescription drug coverage through a select group of network pharmacies.

DEDUCTIBLES AND COPAYMENTS

Community Blue plan 2 has a $500 prescription drug deductible. Once the deductible is met, the copayments described in the chart below will apply. Community Blue plan 1 has no prescription drug deductible, so the copayments below apply right away. All Community Blue plans include a four-tier copayment structure for prescription drugs. Different copayments apply to each tier. Tier placement is based on our evaluation of a particular medication’s clinical efficiency, outputs, cost and pharmacoeconomic factors.

The chart below describes each tier and the copayment that applies. Because this product focuses on high quality and low cost, we encourage members to buy generic drugs when possible. When a member or his physician requests a brand-name drug when a generic equivalent exists, he will pay the

$7 generic copayment plus the difference in cost between the generic and brand drug.

Two methods are available for filling prescriptions:

1. Simply present the Community Blue ID card and a valid prescription to a network pharmacy. No claim forms are necessary, and there is no waiting for reimbursement checks. For participating retail pharmacies, the copayment covers up to a 30-day supply at the maximum amount allowed by your plan. A separate copayment is required for each dispensing.

2. Simple copayment-style coverage also applies to prescriptions filled through the Express Scripts’ mail-order pharmacy. Members pay a mail-order copayment equal to three times the retail copayment and receive up to a 90-day supply or maximum amount allowed by your plan.

ADVANCED FEATURES

Mail-Order Pharmacy System

Express Scripts offers the most advanced data processing and dispensing system in the industry. It features rapid at-home

* Express Scripts is an independent company that serves as the pharmacy benefit manager for HMO Louisiana, Inc.
** Copayment waived for certain generic drugs used to treat certain chronic conditions.
**Prescription Drug Program**

*Express Scripts is an independent company that serves as the pharmacy benefit manager for HMO Louisiana, Inc.*

**Copayment waived for certain generic drugs used to treat certain chronic conditions.**

---

**Step Therapy**

In some cases, you may be required to try a certain prescription drug to treat a condition in order to receive coverage. If this drug does not work for your condition, we will cover a second prescribed medication.

---

**Quantity Per Dispensing (QPD) Limitations and Allowances**

Covered prescriptions have a quantity limit described in your benefit plan, typically up to a 30-day supply at a retail pharmacy and up to a 90-day supply for mail-order. These limits are based on the manufacturer’s recommended dosage and duration of therapy; common usage for episodic or intermittent treatment; FDA-approved recommendations and/or clinical studies; and/or as determined by HMO Louisiana. QPD limits/allowances are subject to quantity limits per day supply, per dispensing event, or any combination thereof.

* Specialty drugs may be limited to a 30-day supply.

---

**Prior Authorization**

Certain prescription drugs and supplies require prior authorization. Please check your Schedule of Benefits, visit the website at [www.bcbsla.com](http://www.bcbsla.com) or call the Customer Service number on your ID card to see what drugs and supplies require prior authorization.

---

**Limitations/Exclusions**

Certain prescription drugs are limited or excluded from coverage, including, but not limited to:

- drugs used for cosmetic purposes
- fertility drugs
- weight reduction drugs
- drugs for sexual dysfunction

Please refer to the benefit plan for a complete list of limitations and exclusions.
CARER MANGERMENT PROGRAMS

Our in-house medical team of doctors, pharmacists and nurses provides wellness and preventive services for healthy customers and Disease Management programs for those who experience chronic illness.

CASE MANAGEMENT

Through our case management program, we assess, plan and assist with options and services to meet an individual’s health needs through communication and available resources to promote quality, cost-effective outcomes. We help by:
- Resolving barriers to achieve most favorable outcome
- Assisting with coordination of complex treatment plans
- Screening members for behavioral health issues
- Addressing medical necessity issues
- Supporting the member with the healthcare team
- Providing health information to members for informed decision-making

DISEASE MANAGEMENT

Our Disease Management Programs work to improve the healthcare of members with diabetes or heart failure by discovering chronic conditions earlier. We work with members to slow down their diseases and decrease problems. Community Blue features five disease management programs to help members learn to better manage their conditions through support, information and medication management. Conditions include Asthma, Chronic Obstructive Pulmonary Disease, Coronary Heart Disease, Heart Failure and Diabetes. These programs also follow guidelines suggested by the American Heart Association, the American College of Cardiology and the American Diabetes Association.

In addition to improving the quality of health for our members through these programs, Community Blue also offers certain generic medications used to treat these conditions at no extra charge to members.

UTILIZATION REVIEW

Our comprehensive approach ensures that members receive necessary care without unnecessary exposure to risks when applicable. We use evidence-based clinical criteria to reduce unjustified variation in care, which:
- Decreases differences
- Reduces gaps in knowledge
- Improves quality
- Supports evidence-based decision making

Key Differences Between Case Management and Disease Management

Case Management focuses on one individual to maximize health outcome — its duration is usually shorter and associated with a single episode of illness.

Disease Management tries to improve the health of an entire population with a certain condition — participation lasts two years or longer to make lifestyle changes and then sustain the change over time.
DIETICIAN VISITS

Dietician visits are covered up to $250 per calendar year. No authorization is required to access this benefit. Diabetes education is not included, but is available under a separate benefit.

CARE AWAY FROM HOME

Community Blue members have access to their benefits across the country through the BlueCard® Program. To meet the different healthcare needs of members and dependents who are away from home, the Community Blue plan offers separate benefits for short trips and long-term stays. Simply refer to your ID card for helpful information on accessing healthcare when you’re away from home. To learn more, call HMO Louisiana Customer Service at 1.800.495.2583 or visit www.bcbs.com/coverage/bluecard.

- ** Patient Protection and Affordable Care Act
- *** If admitted to a non-Community Blue Hospital, through the Emergency Room, member may incur a daily penalty if he chooses to stay at the facility once stabilized. Member may incur a reduction in benefits for obtaining care at a non-Community Blue Hospital. A penalty may apply when a Hospital Admission is not Authorized as required.
ONLINE TOOLS

MY ACCOUNT

Our members want more ways to manage their health information. That’s why we offer password-protected online tools that allow you to review and manage your healthcare information 24 hours a day, seven days a week.

To register your online account, go to www.bcbsla.com and click Log In for instructions on how to register. If you need help registering or logging in, call the 24-hour support line at 1.800.821.2753.

Your online account tools help you manage your health with access to claims activity, online health records, health education, treatment options, wellness programs and discounts.

CLAIMS REVIEW

See your latest plan activity or search past claims on the Review Claims screen:

• View your claims and the claims of covered dependents under 18.
• Easily see your costs in the highlighted columns.
• Search past claims by date, provider, etc.
• See claims payment status.

ONLINE HEALTH RECORDS

Use our free online health records to track your health history and to give new healthcare providers insight into your past care.

Personal Health Record
This free tool is an easy, secure way to keep track of your past conditions and treatments, as well as medications and emergency contact information.

Blue Health Record
Your Blue Health Record provides a quick three-year summary of your medical care, based on claims and organized by episode of care.

HEALTH EDUCATION

It’s important to understand your health and stay informed about ways to improve it. When you click on Healthcare Advisor*, you can:

• Learn what questions to ask your doctor.
• Research health topics.
• Read health news and alerts.
• Use wellness calculators.
• Look up common treatments.

*Treatment Advisor is powered by WebMD Health Services, an independent company that provides information on coverage and health topics for Blue Cross and Blue Shield of Louisiana and HMO Louisiana, Inc.

TREATMENT OPTIONS

When you visit Healthcare Advisor, you will also find tools to help you choose the best hospital for your needs and estimate the cost of your treatment.

Choose the Treatment Options menu item to:

• Estimate costs for hundreds of common conditions, procedures, tests and healthcare visits.
• Find hospital facilities that are best for your situation and condition.
Good health begins with our My Health, My Way wellness program, which includes:

- A Personalized Health Assessment (PHA) to help you learn more about your health status and ways to address health risks.
- Interactive tools that let you track your weight, exercise and food intake.
- Fitness and nutrition plans that can be customized for you and your family.
- Online videos on topics such as back care, nutrition, smoking cessation, stress management and weight management.
- Exclusive access to a national program, Blue 365®, providing discounts and savings on fitness club memberships, nutrition programs and products, financial well-being services, family care services and healthy travel. You can even save on elective procedures for vision and hearing.
- It’s all secure, confidential and at no extra charge to you!

Find out more at www.bcbsla.com under Health & Wellness Tools.

Louisiana ranks high in the nation in adult obesity and in deaths from diabetes. These are some of the reasons why Blue Cross created the Louisiana 2 Step, a statewide public health education campaign to encourage all Louisianans to eat right and move more.

The award-winning interactive website at www.Louisiana2Step.com and the fun companion site at www.2Step4Kids.com communicate this message in age-appropriate formats. The 2 Step can also support your My Health, My Way wellness goals.

Security and Confidentiality: The Personal Health Assessment has been engineered to provide the same level of protection for your confidential health information that online banking and consumer websites offer their clients and account-holders. If you are identified as someone who may benefit from Care Management Services, your information may be shared with medical personnel, and you may be contacted by a Care Management nurse.

The information you provide in the PHA will be used only as permitted by law. This information will not adversely affect your enrollment in your health plan.
DISCOUNT NETWORKS

Blue365®

Living well means having healthy options every day. That’s why we offer Blue365® to take our members beyond health insurance and give them access to trusted health and wellness resources 365 days a year. Blue Cross members enjoy special discounts on many services.

Blue365 is a national program that’s part of every plan, offering exclusive access to information, discounts and savings, making it easier and more affordable to make healthy choices.

Health & Wellness
- **Fitness** — discounts on local health club memberships and free access to online tools.
- **Diet/Weight Control** — savings on programs, products and consultations at Jenny Craig®, eDiets® and NutriSystem®.
- **Vision Discounts** — With Blue365 our members can receive routine eye exams, frames, lenses, conventional contact lenses and laser vision correction at substantial savings when using Davis Vision network providers. Members have access to more than 30,000 providers nationwide, including optometrists, ophthalmologists and many retail centers. Members can also save 40 to 50 percent off the overall national average price for Lasik surgery through QualSight LASIK.

Financial Health
- **Save 25 percent on federal tax preparation when you prepare your own taxes with H&R Block At Home™.** With H&R Block At Home online solutions, you can do your own taxes by following the simple, step-by-step Q&A that searches for hundreds of deductions to help you receive the maximum refund!

Family Care
- **Senior Care** — discounts on care advisory services
- **Child Safety** — access to child safety and consumer product information
- **Long-Term Insurance** — free guidelines and information
- **Managing Medicare** — resources to understand coverage options from Medicare

Travel
- **Healthy Getaways** — special discounts on hotel programs and services
- **Worldwide Health Coverage** — access to doctors and hospitals across the globe
- **Travel Tips** — a wealth of online travel tips and resources

You can explore all these healthy choices after logging in My Account at [www.bcbsla.com/ogb](http://www.bcbsla.com/ogb). Just click My Health, then Wellness Discounts.

DENTAL DISCOUNT NETWORK

You can take advantage of special discounts on dental services by simply presenting your ID card to a participating provider and immediately receiving significant savings. To find a dental discount provider, visit [www.bcbsla.com](http://www.bcbsla.com).
GENERAL CONDITIONS

SERVICES NOT COVERED

Your plan will not pay for:
- Services, supplies and treatments that are not medically necessary
- Cases covered under workers’ compensation and employer liability laws
- Custodial care
- Treatment for mental disorders and substance and/or drug abuse
- Treatment for eating disorders, infertility and TMJ
- Corrections for refractive errors of the eye
- Contraceptive, fertility and impotence drugs, regardless of medical necessity
- Diagnostic admissions
- Maternity

This is a partial list. Please see the benefit plan for a complete list of limitations and exclusions.

PRE-EXISTING CONDITION EXCLUSION PERIOD

For 365 days after your coverage begins, your plan will not pay for care related to a condition you already had.

There is a pre-existing condition exclusion period for the coverage of treatment for pre-existing conditions. That period is 365 days from the effective date of coverage. A pre-existing condition is a condition that would have caused an ordinary prudent person to seek medical advice, diagnosis, care or treatment during the 365 days prior to the effective date of coverage, a condition for which medical advice, diagnosis, care, treatment or a prescribed drug was recommended or received during the 365-day period prior to the effective date of coverage or a pregnancy existing on the effective date of coverage. All pre-existing condition exclusion periods may be reduced for time served under a prior plan’s health coverage as per state and federal guidelines. This exclusion period does not apply to anyone under 19 years of age.
CUSTOMER SERVICE

We are committed to your satisfaction and are always open to your comments and suggestions. If you have any questions or complaints about your health benefits plan, please let us know. Call one of our Customer Service representatives or visit our website at www.bcbsla.com and submit your question on our secure online Customer Inquiry Form. Click on Customer, then choose Customer Inquiry Form and follow the directions.

YOUR PROVIDER DIRECTORY

Please refer to your Community Blue Provider Directory to find doctors and other healthcare providers in your network. It also has important information about your responsibilities as a Community Blue member.

For specific information about your health benefits plan, please read your contract and Schedule of Benefits. Customer Service representatives are also available to help you with any questions you may have at 1 (800) 495-BLUE (2583) or (225) 293-BLUE (2583).

Our network is always changing. To get the most up-to-date listing of Community Blue providers, visit www.bcbsla.com and click Find a doctor or a drug to search our online directory.

Get the most up-to-date directory
Visit www.bcbsla.com and click Find a doctor or a drug to search our online directory. We update our online directory every day.

You can also download the Blue Cross Hospital and Doctor Finder App for Apple mobile devices (such as an iPhone or iPad) from the App Store. Keep your network in the palm of your hand!
### Checklist for Getting Care

Remember these important points to get the most out of your Community Blue benefit plan and help you avoid costly mistakes:

| ✓ | Community Blue has a restricted network of doctors, hospitals, labs and pharmacies. You must stay in this network or you could pay significantly more for your care. |
| ✓ | Always confirm that your provider participates in the Community Blue network before you receive healthcare services. |
| ✓ | If you are hospitalized following an ER visit and the hospital is not in the Community Blue network, once your condition is stable you must move to a Community Blue hospital or you will pay $500 per day in penalties. |
| ✓ | Choose generic drugs when you can. If you choose a brand-name drug when a generic equivalent exists, you will pay the difference in cost. |
| ✓ | If you have a chronic condition such as asthma, COPD, coronary heart disease, heart failure or diabetes and participate in one of our disease management programs, you have access to free value drugs. |
| ✓ | Community Blue has a restricted lab network. Be sure to have your lab work performed and analyzed at a Community Blue facility. |
| ✓ | Do not file your own claim. Doctors and other healthcare providers will file the claim for you. If you are given a receipt or a copy of the claim, keep it for your records. |
| ✓ | Let your doctor and hospital know that your health benefit plan requires your hospital admissions to be authorized. |
| ✓ | Go to your Primary Care Physician for your care first, then go to an urgent care clinic or emergency room only if needed. |
| ✓ | Providers with multiple locations may not participate at all locations. You should always verify your provider's participation by calling the Customer Service number on your member ID card. |
| ✓ | Some hospital-based physicians may not be in the Community Blue network. Visit www.bcbsla.com/hbp for more information on facility-based physicians. |
