

All covered prescription medications are available at a participating pharmacy for the day supply limitation stated in your member contract/certificate (typically up to a 30-day supply at retail and up to a 90-day supply for mail order). In addition, quantity per dispensing (QPD) limits/allowances are placed on certain medications and are based on the manufacturer's recommended dosage and duration of therapy, common usage for episodic or intermittent treatment, FDA-approved recommendations and/or clinical studies, and/or as determined by Blue Cross and Blue Shield of Louisiana.

The following is a list of the most commonly prescribed medications subject to QPD limits/allowances. Drugs listed in this section are not meant to be a complete list of medications covered by your plan. As benefits may vary by group and individual plans, the inclusion of a medication on this list does not imply prescription drug coverage.

Drug Name	Dosage Form	Retail QLL	Mail QLL
Abilify	All tablet strengths	30	90
Abilify Discmelt	All Discmelt strengths	60	180
Abstral	All dosage form strengths	96*	288*
Accupril	All tablet strengths	60	180
