Reporting is required by the "Health Care Consumer Billing and Disclosure Protection Act" of the 2009 Louisiana Legislative Session. A facility is required to report this information to each insurer with which it contract

Hospital-Based Physician Chart Instructions

This is a list of the facilities in this region that participate in the Blue Cross networks. Follow these steps to get the information you need:

- 1 Find the facility where you will be receiving care
- 2 Next to each facility, you will see a list of the hospital-based physicians and/or groups who practice at that facility
- 3 The first five columns of the table represent the following five specialties: Anesthesiology, pathology, radiology, emergency medicine and neonatology. There will be a checkmark (✓) in the appropriate specialty column for each physician or group who participates in the Blue Cross networks
- 4 The two columns in blue show whether the physician or group is
 - ✓ Participating in Blue Cross' Preferred Care PPO network;
 - ✓ Participating in the HMO Louisiana network (if applicable)
- 5 The last column will be highlighted in red if the physician or group is
 - ✓ Not participating in any Blue Cross network and therefore considered "out-of-network"

What you can do with this information:

If you are planning to have surgery done at a network facility that has one or more out-of-network hospital-based physician(s), members may be balance billed for the difference between the Blue Cross payment and the provider's allowable charge. You may consider asking your surgeon whether you can have your procedure at another hospital. If that is not possible, you may be "balance billed" by an out-of-network provider. In that case, call the out-of-network provider's office and ask whether they will accept Blue Cross' allowable charge as full payment for their services.

If you have questions, call Customer Service at the number on your member ID card, or use the [secure online inquiry form](#) to send us your question.

Rights and Protections Against Surprise Medical Bills

Out-of-network providers cannot send members an unexpected bill when they cannot choose who treats them. Out-of-network providers who see members in a true health emergency cannot send them a bill for more than what their plan pays. In most cases, out-of-network providers who see members in a network hospital cannot send them a bill for more than what their plan pays without their consent.

This chart tells you the contracting status of hospital-based physicians in the following specialties: anesthesiology, emergency room medicine, neonatology, pathology and radiology.

✓ [Participates in Blue Cross and/or HMO networks](#)
